

Performance Metrics: SSVS vs GETS
Solid lines: Precision, Dashed lines: TP Rate

F1 Score Comparison

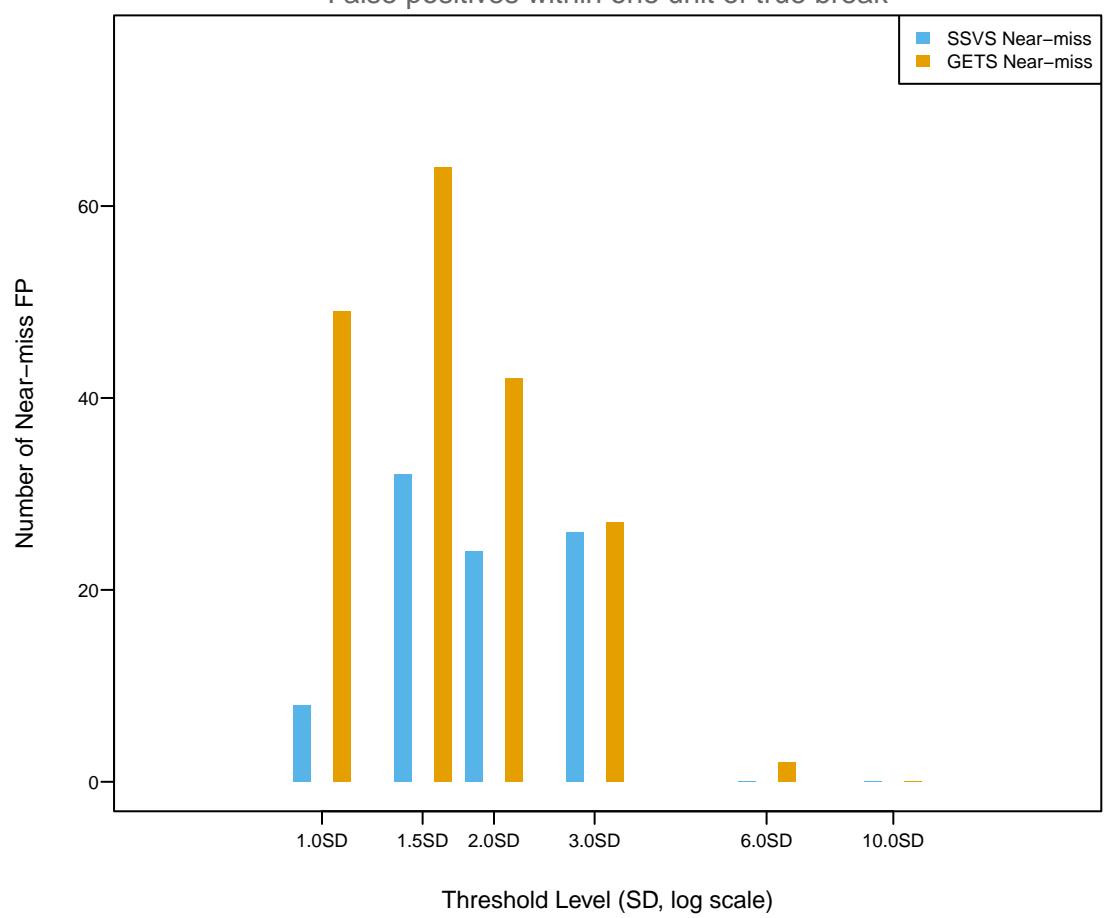

True Positives**False Positives****False Negatives**

Threshold Level (SD, log scale)

SSVS
GETS

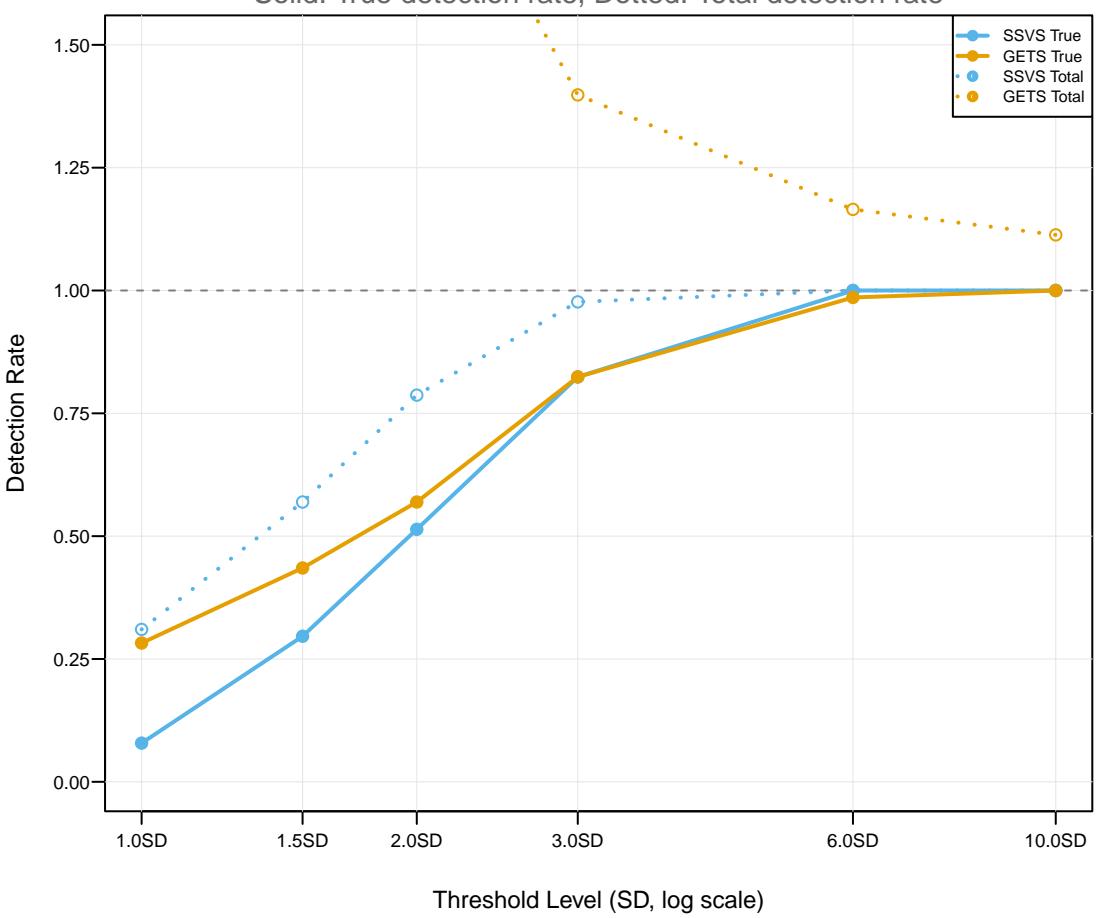

Near-miss False Positives (± 1 unit)

False positives within one unit of true break

Detection Rates

Solid: True detection rate, Dotted: Total detection rate

SSVS Performance: Standard vs Window (± 2)

Window approach allows ± 2 units tolerance
